

# A Goal for this Workshop?

---

## Develop a “UAS Weather User Group”

To bring together:

- UAS operators and manufacturers
- UAS regulators
- UTM researchers, developers, Users, and implementers
- Weather product researchers, developers, implementers, and disseminators

To:

- Be a forum for disparate UAS constituencies to provide feedback for UTM/weather integration and UAS/weather operations
- Help focus UTM and other UAS Weather related R&D efforts
- Advocate for capabilities needed by the UAS and Weather community
